Fact Sheet: FY 2006 Homeland Security Grant Program (HSGP) Award for the State of California

Background on the FY 2006 HSGP:

On May 31, 2006, the US Department of Homeland Security (DHS) announced allocations to state and urban areas under the FY 2006 Homeland Security Grant Program (HSGP). California will receive \$32 million less in FY 2006 than it received in FY 2005, due in large measure to reductions in federal homeland security grant appropriations (\$700 million across all grant programs) approved by Congress this fiscal year. Moreover, to determine the FY 2006 HSGP allocations from this reduced amount of available grant funds, DHS used a new formula based on "risk" and "need" and the California Office of Homeland Security believes, as expressed earlier this year, that this new allocation process is fundamentally flawed. California received an increase in its overall percentage of funds awarded relative to last year and in comparison to other states.
